

Polling District Review Proposals and changes

Bedfont

Current Arrangements:

Polling District	Polling Place	Current Electorate (Excl Postal Voters)
BDA	The Airport Church Revival Centre, 311 Hatton Road, TW14 9QX	1,157
BDB	St Mary's Church Hall, Hatton Road, TW14 8JR	2,857
BDC	The Southville Community Centre, Southville Road, TW14 8AP	2,833
BDD	Bedfont Library, Staines Road, TW14 8DB	1,841

Proposed Arrangements:

Polling District	Polling Place	Current Electorate (Excl Postal Voters)
BDA	The Airport Church Revival Centre, 311 Hatton Road, TW14 9QX	1,045
BDB	Bedfont Primary School, Hatton Road, TW14 9QZ	1,934
BDC	The Southville Community Centre, Southville Road, TW14 8AP	1,090
BDD	Bedfont Library, Staines Road, TW14 8DB	1,841
BDE	St Mary's Church Hall, Hatton Road, TW14 8JR	2,857

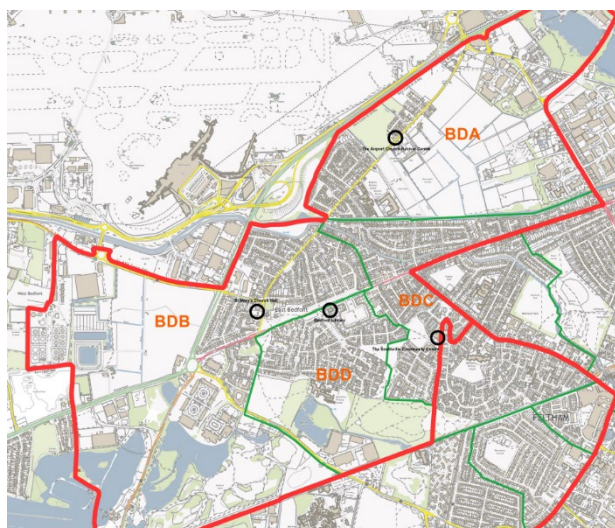

Comments:

Some voters in the BDC polling district currently have a walking distance of approximately 25 minutes (from the furthest point to the Southville Community Centre). This situation affects both sides of the polling district and could be a barrier to voting, especially for vulnerable groups like disabled and older citizens. To address this, a proposal is put forward to create a new polling district BDB specifically tailored to meet the needs of these voters.

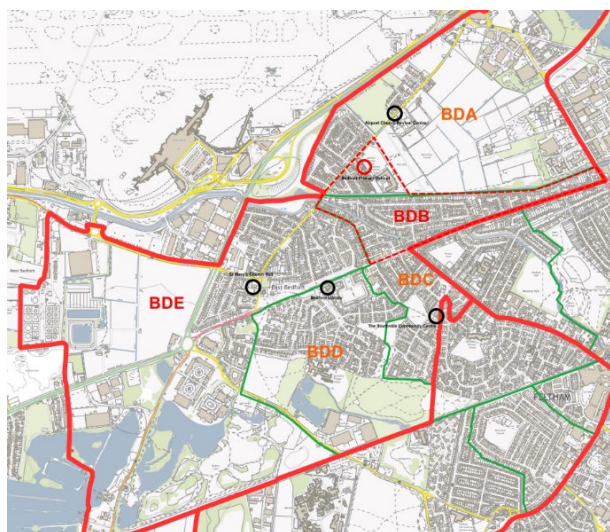

A site visit to Bedfont Primary School has been carried out and the school meets all requirements for a polling place. The school is accessible and well-connected by public transport. Importantly, the school has confirmed it would not need to close in order to accommodate polling, as a section would be cordoned off for voting. This proposed area would take an approximate 1800 electors from BDC and approximate 100 electors from BDA, with a boundary being drawn along Hatton Road around the school, through to just past Kingston Avenue and then along the Roman Road.

The new polling district is listed as BDB, whilst the previously listed BDB (St Mary's Church Hall) would become BDE.

CFB	Cranford Primary School, Berkeley Avenue, TW4 6LB	2,187

CFD	Hope Church, Good Shepherd Location, 360 Beavers Lane, TW4 6HJ	1,177
CFE	The Hub Community Centre, 103 Salisbury Road, TW4 8NW	2,413

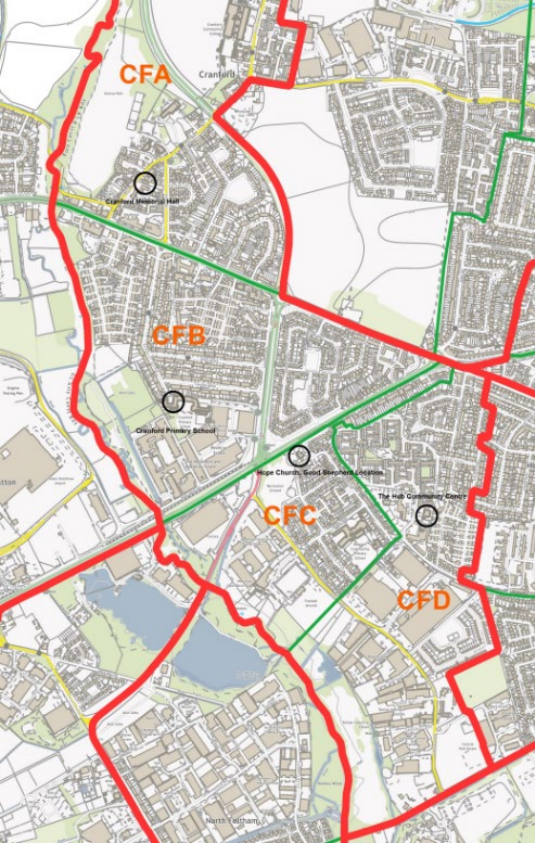

Comments:

Some voters in the CFB polling district currently have a walking distance of approximately 20 minutes (from the furthest point to Cranford Primary School)

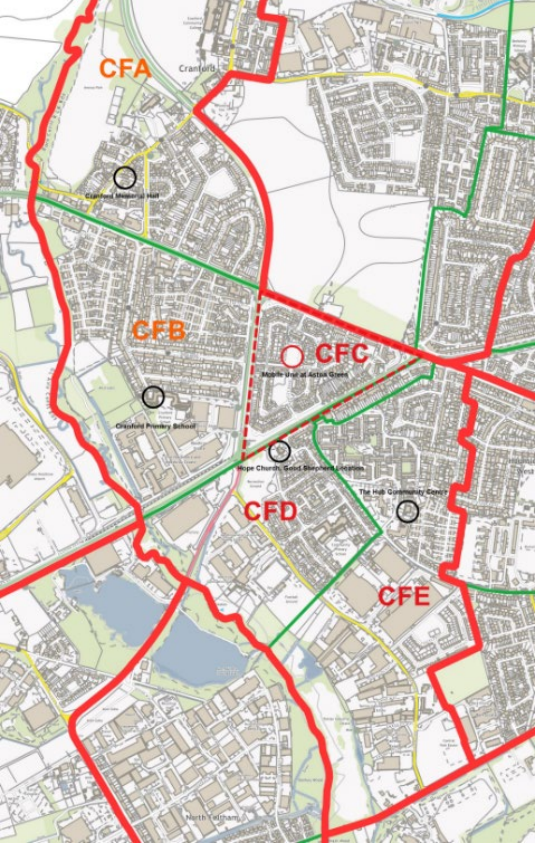

The creation of polling district CFE aims to enhance voting accessibility for local residents. Specifically, this change may benefit older and disabled electors who may find it challenging to reach distant polling places and crossing a main road. By creating a new polling district, we can ensure that voting facilities are more conveniently located for these residents. It is recommended a new polling district is created, with the boundary drawn along the Great South West Road, all of this new district would be taken from CFB. This is subject to Hounslow Highways conducting a feasibility site visit.

As part of these changes, the current polling district CFC will become CFD, whilst CFD will become CFE. CFC will operate as the new polling district.

Comments:

Before 2019, some electors in polling district CGD used to vote at Gunnersbury Baptist Church. However, due to extensive building renovations, the church became unavailable as a polling place. As a result, these electors were redirected to vote at Chiswick Town Hall. Now, with the completion of renovation works at Gunnersbury Baptist Church, the venue is once again available as a polling place for future elections.

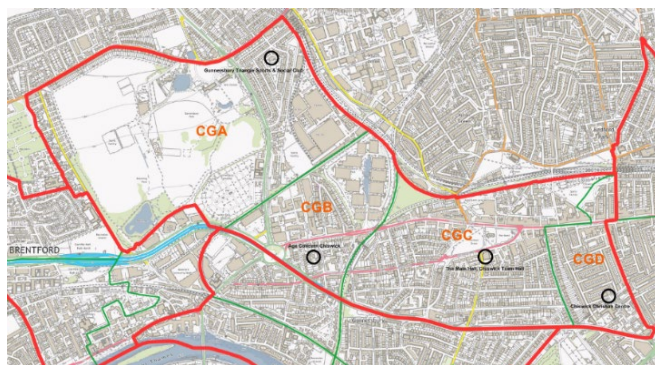

A site visit has been carried out, confirming the Church meets all accessibility requirements.

In addition to this, the former CGC would become CGD and the former CGD would become CGE.

SBC	Digital Dock Brentford, 205 High Street, TW8 0AH	1,764
SBD	Residents Clubroom, Augustus Close, Brentford Dock, TW8 8QE	667

Comments:

The proposal aims to merge polling districts SBB and SBE for administrative efficiency. Currently, there is an uneven distribution of voters across these districts. By merging them into one, we can achieve a more balanced distribution of electors across a double polling station. This change will alleviate the burden on a single polling station that currently handles a higher turnout.

Please note:

All polling places can have multiple polling stations located within them. If a polling place has a particularly high electorate, it is likely this is already operating as a double station or has potential to do so, unless it has been specified in the comments.
